I hope you guys had a great session for further learning. Use these resources…

Resources to enhance your learning:

1> OpenCV Resources:
   a. https://opencv.org/
   b. Try Out Some mini projects by seeing a Video and understand the Functions
2> ROS2
   a. https://docs.ros.org/en/humble/index.html (ROS2 Humble version works on Ubuntu 22.04. Note that ROS2 Jazzy is available for Ubuntu 24.04.)
   b. https://youtube.com/playlist?list=PLLSegLrePWgJudpPUof4-nVFHGkB62Izy&si=sFBZEUCQ-EdpNRBG Basic ROS2 Playlist.
3> Create a YOLO model
   a. https://youtu.be/wuZtUMEiKWY?si=x5y3H2ty1mHgNnN1 For YOLO object detection
   b. **Datasets**: You can find datasets on Roboflow..

Happy Learning !!!
